Protection from Wind & Rain

If you are looking for a more comfortable area for your entertainment, then we have the options that may suit your requirements. They are simple to install, but require very accurate measurements. We have a measurement sheet to make it easy for you.

Prices Start At \$ 250.00 Inclusive Gst

THIS IS AN INDICATION ONLY, OF WHERE YOU CAN BEGIN

depending on Quality of Materials and Manufacturing Design.

THE OPTIONS

MANUAL ROLL-UP suitable for heights around 2.0 metres.

- Rope Track Top and Sides . Alloy Stiffener at Ground Level
- Heavy Duty Zips on Sides . Top Holding Straps

CRANK ROLL-UP suitable for heights around 2.5 metres x 3 metres wide.

- You simply crank reversible gear housed at top to tighten screen after locating bottom rail in ground level side brackets.

CRANK ROLL-UP with Side Rails

- As above, but the channel railings on either side allow the raising and lowering of the screen to be better controlled. The screen will not be forced against you in strong winds.

ZIP Track

- The ultimate in streamlined componentry , you simply raise and lower the screen like a conventional roller blind.
